DETAILED ACTION

Response to Amendment

1. Applicant's Amendment filed on 5/15/2009 has been entered with no amended claims. In this Final Office Action, claims 1-123 and 158-159 are pending.

Claim Rejections - 35 USC § 251

2. Claims 71-123 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Pannu v. Storz Instruments Inc.*, 258 F.3d 1366, 59 USPQ2d 1597 (Fed. Cir. 2001); *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to claim subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope of claim subject matter surrendered in the

application for the patent cannot be recaptured by the filing of the present reissue application.

Applicant deleted, removed or omitted the limitation while broadening claims 71, 88, 105 and 158-159 and limitation is "applying the solution as the travel scheme for minimizing travel costs by purchasing travel trips in accordance with the solution." It is considered as surrendered subject matter for the original patent is recaptured by filing the present reissue application without this limitation. Claims 72-87, 89-104 and 106-123 are dependent on the independent claims 71, 88 and 105 respectively and they are also rejected under the same rationale.

Allowable Subject Matter

3. Claims 1-70 are allowed as they are from the original patent and they were allowed.

Response to Arguments

4. Applicant's arguments filed on 5/15/2009 have been fully considered but they are not persuasive and details are as follows:

a) Applicant argued as "The April 17, 1998 Reply was submitted in response to the Office Action dated January 21, 1998, in which claims 1-70 were rejected under 35 U.S.C. § 101 as being directed toward non-statutory subject matter.¹ Specifically, the Examiner stated in the Jan. 21, 1998 Office Action that claims 1-

70 lacked (1) a physical transformation outside the computer; or (2) practical application within the technical arts.”

In response to Applicant’s argument, Examiner respectfully disagrees. Because, Applicant has added the limitation in order to allow the claims in the original Application. Applicant has deleted the same limitation intentionally or knowingly without considering the recapture issue. Therefore, the recapture problem exists. Applicant is required to amend claims to overcome this rejection, for details see MPEP 1412.02.

b) Applicant argued as “Notably, no art was cited against Applicant in the January 21, 1998 Office Action.”

In response to Applicant’s argument, Examiner respectfully disagrees. Because, there is no action has been mailed on January 21, 1998.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
